

**REMARKS**

**I. Introduction**

Applicants respectfully request entry of the foregoing amendments, which present claims to specific embodiments described in the captioned application. Claims 93-107 are copied (with some revisions) from US 2005/0244503 (U.S. Patent Application No. 10/848,765), published on November 3, 2006 (within one year of the filing of this amendment). Claims 93-107 recite specific embodiments of the invention. Exemplary support for the new claims in the application as filed is demonstrated below.

This amendment adds, changes and/or deletes claims in this application. A detailed listing of all claims that are, or were, in the application, irrespective of whether the claim(s) remain under examination in the application, is presented, with an appropriate defined status identifier in the Listing of the Claims beginning on page 2 of this communication.
